Projects

Pixtrest | JavaScript, React, Redux, Rails, PostgreSQL, CSS

[Live](#) | [GitHub](#)

Single-page web application with a Pinterest-inspired UX/UI created in 9 days.

- Leveraged CSS3 flexbox, z-index and React-Modal for an appealing and dynamic layout.
- Stored user generated images on Amazon Web Services S3 (AWS) for website speed optimization.
- Built modals for CRUD to enhance user experience and implemented event listener functions to allow more interactivity with the users.
- Utilized polymorphic associations for follows on users and boards for DRY code.

Penguin | JavaScript, Canvas, HTML

[Live](#) | [GitHub](#)

- Animated moving animals with JavaScript and Canvas.
- Implemented event handlers to provide smooth UX for controls such as arrow buttons.

Skills

JavaScript • Ruby • React • Redux • CSS • Rails • jQuery • SQL • HTML • TDD • Git • AWS • jBuilder

Experience

Executive Manager, MACY'S, New York

08/2015 to 12/2017

- Directly responsible for 10 departments that exceeded a yearly sales volume of over \$14,000,000.
- Boosted gross yearly sales by at least 5% for 3 consecutive quarters by planning, strategizing and executing entrepreneurial promotional events and marketing activities.
- Sales manager of the year for 2016 based on high performance and metrics.
 - Managed the ready to wear department and it was up 7.2% to plan.
- Recruited, hired and developed new sales associates; conducted performance evaluations and talent analysis.
